

Mail management software with built-in SMTP & POP3 supporting unlimited users, unlimited email accounts, SPAM filtering and much more....

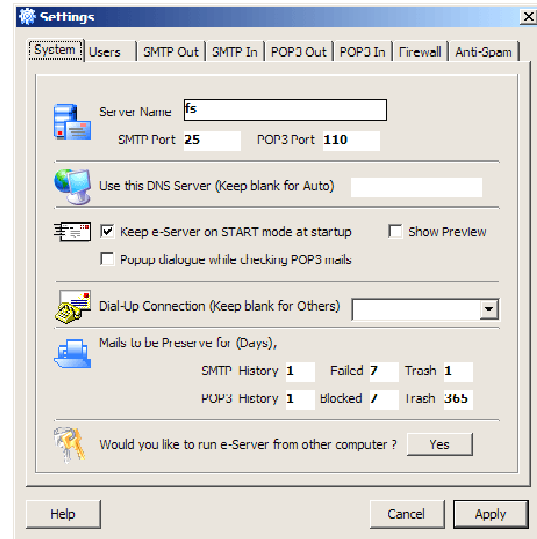

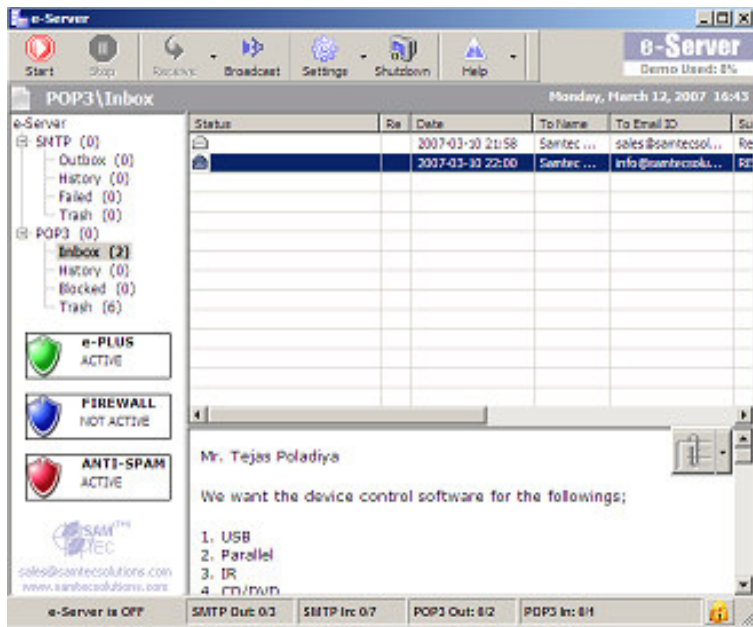

e-Server

Mail Management Software...

e-Server is a unique **Multi-threaded** software that provides efficient **Internet** as well as **Intranet** messaging system for individual, small offices as well as large corporate networks.

e-Server's built-in SMTP allows you to send messages straight to the recipient's mail box without using any external SMTP. Its **Multi POP** account feature makes it possible to collect email message from any number of POP accounts on multiple servers and deposit them directly into user's mailbox

e-Server when connected to a network in an organization, can do complete mail management in the organization. All users in that network can send / receive message through **e-Server**. **e-Server** does monitoring of SMTP / POP3 statistics, total active Connections, messages sent/received, message failures due to various reasons like user unknown mailbox, full, etc.

e-Server has many options like auto / manual forwarding , re-queuing, auto responders, SPAM / virus mails filtering, single internet account sharing facility with the help of which you can customize the entire message sending / receiving process to satisfy your requirement. In short e-Server ensures faster, stable, secure and more easy-to-control mail sending / receiving, and thus it helps you to save time and money.

Advantages

- **Centralization:** All mail can be centrally managed and controlled
- **Efficient use of resources:** Internet connection is needed only for external communication that to only on the PC where e-Server is installed.
- **Continual availability:** e-Server can continue processing mails even when the client workstations are turned off, allowing functions that depend on a continuously available service, such as automatic replies and auto-forwarding
- **Improve business performance:** Through faster & effective inter-office email communication you can eliminate printouts / hard copies. Making your business more efficient, more productive and in the end more successful

SAMTEC Solutions (P) Limited

601, Megor Arcade, 6th Floor, Plot No. 15,
M. G. Road, Ghatkopar (E), Mumbai - 400077
